

Network Launch

**7-8 September
2010**

**Chemistry Centre
Royal Society of Chemistry,
Burlington House, Piccadilly,
London**

EPSRC
Engineering and Physical Sciences
Research Council

RSC | Advancing the
Chemical Sciences

**For more information
and booking details contact:**

Katy Armstrong
CO2Chem Network Manager
katy.armstrong@sheffield.ac.uk
www.co2chem.co.uk

**CO₂ capture and use
provides one of the
biggest challenges to the
chemicals industry today.**

**Solve it and we could
reinvent the chemicals
industry with the UK
leading the world.**

**CO2Chem will bring
together academics, industry
and policy makers with an
interest in 'Utilising CO₂ in
Synthesis and Transforming
the Chemicals Industry'**

**Participants will set the
agenda for the Grand
Challenge, considering:
the opportunities and
challenges for:**

- Carbon Capture,
 - CO₂ catalysis,
 - Biotechnology,
- Chemicals from biomass
and the implications for the
power generating and
chemicals production
industries.
